

TRAINING MEET

There is no scheduled training meet for this second half of '88, but any one wanting training will be catered for by a non scheduled meet which we can arrange for provisionally around the end of August. All members wanting training (were talking stage one here, ie beginners only) if you'll give me a buzz and when I know how many to cater for we'll fix a mutually acceptable date and take it from there.

As a reminder please note that stage one and stage two meets are more efficient if they are kept distinctly separate. At stage one gear will be provided for those wishing to try their hand at S.R.T. Stage two is meant as a follow on session for which members will be deemed to have committed themselves and invested in S.R.T. and thus will be expected to be resplendent with a complete set of STRICTLY their own gear. Stage two covers the set up of personal gear and this cannot be performed in borrowed gear. If for some reason you are unable or un inclined to obtain your own gear then fine, no problem, the stage two can wait, I'll still be here when you have accrued the means, or the interest to do it right.

Anyone in want of either level of training please give me (Anton) a ring.
