Coppermines Workmeet

9 Members Attended

M.L. C.D.J. (Deputising for Mike Mitchell)

Several projects were accomplished all centring around stabilising and making safe routes around the through trip. A great deal was done at various places – holes drilled, lifelines improved, traverse lines placed, boulders stabilised etc. Even Peter Fleming managed to try and bomb the M.L. and Gordon Gilchrist by ripping up part of the floor of Arête Chamber and throwing it the 90' on top of them as they put bolts in on Top Level.

Lots of excellent work accomplished.

C.D.J.
