

9th September 1990
Roughten Gill

Meet attended by I.Tyler Warren Allison and I.Hebson, (Doug and Julien Sharman non members) A.Westall and his brother drove up to Roughten Gill and by pure chance managed to find us.

The gill adits were visited including a newly opened coffin level, Thief Gill level was also visited. A walk over the fell and we descended into Red Gill and four people entered the main adit. "The adit was completely secured and will require a substantial dig to regain entry". The party returned to Fellside, A.Westall and his brother had in fact departed earlier and did not enter the Red Gill Mine.
